

END THE OCCUPATIONS OF IRAQ, PALESTINE AND AFGHANISTAN!

STOP THE WAR AT HOME AND ABROAD!

END THE OCCUPATIONS! These occupations highlight the increased rivalries that are heating up between different imperialist countries. The coming decades will involve more and more aggression, with disastrous effects for working and poor people all over the world, including brutal occupations abroad, the slashing of immigrant and refugee rights at home, and a clamping down on civil liberties.

STOP THE WAR AT HOME AND ABROAD:

The colonial natures of Canada and the US are an ever-present element of all struggles for oppressed people here in the imperialists home countries. A movement against the wars and occupations is a movement that struggles for the self-determination of Indigenous people all over the world, including Canada and the US, and for the rights of immigrants and refugees.
